

Digital Forensic Incident Report

Case ID: 2e44354d

Generated: 2026-01-07 08:40:28 UTC

1. Executive Summary

Incident summary: - Artifact 2e44354d-a17b-49b6-bc59-c65ca08c112f indicates process execution activity (Type: process_event; Summary: "Process execution activity detected"). - Interpretation notes that the decoded base64 content is "kG". No additional details are provided in the evidence.

2. Chronological Event Timeline

Timestamp (UTC)	Observed Event
2026-01-07 08:40:07.115694+00:00	Process execution activity detected

3. MITRE ATT&CK; Technique Mapping

Artifact ID	Technique ID	Technique Description
N/A	N/A	No mapped techniques identified

4. Source IP Concentration Analysis

Source IP	Event Count
-----------	-------------

5. Case Intelligence Summary

Attack Channel	Observed
Web	No
Authentication	No
Network	No
Endpoint	Yes
Cloud	No
